INFORMATION DISCLOSURE STATEMENT

In accordance with the provisions of 37 CFR §1.56, Applicant requests that citation and examination of the references listed on Form PTO-1449, copies of which are enclosed herewith in accordance with 37 CFR §1.98, be made during the course of examination of the above-identified application for United States Patent.

Document AL, German DE 44 02 903 A1 relates to a mobile radio network packet data transmission procedure assigning an identifier or a code number valid for packet-data transmission for establishing an RF communication link of a mobile station.

Document AN, German DE 197 34 935 A1 relates to a transmission system for a mobile communications network which has a resource request transmitted in forwards direction from a mobile station evaluated at a base station for modification of resources distributed to a mobile station.

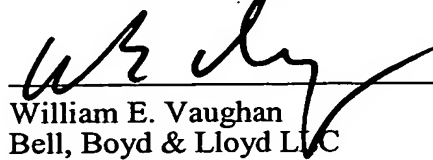

Document AO, German DE 198 10 285 A1 relates to a channel characteristics determination for a radio communications system sending training sequence signals from base stations to a mobile station in a predetermined time raster so that they arrive overstocking each other in a certain frequency range and in a certain time area in a mobile station.

Document AP, German DE 198 17 881 A1 relates to an information transmission method for a radio communication system in transmitting information

using a physical channel which provides a TDMA subscriber separation in time slots in one of which several radio blocks are transmitted.

Accordingly, early consideration and allowance of the application, including the claims, are hereby requested.

Respectfully Submitted,

(Reg. No. 39,056)
